

The future of dental CAD/CAM
production systems is **SMART**,
NETWORKED and **DIGITAL**

DENTALnetwork. SMARTservices. MARKETplace.

The CORiTEC Dental Smart Market DSM is the digital platform of imes-core GmbH. It connects the end customer with the dealer and partners. The DSM combines intelligent online machine management with smart service and processing functions. It offers an online product guide for your matching machine and a marketplace with all suitable parts and a design/nesting/CAM service.

The DSM. Your Digital Network.

- ✓ Machine systems
- ✓ Sales & Service
- ✓ Administrative activities
- ✓ Products & maintenance

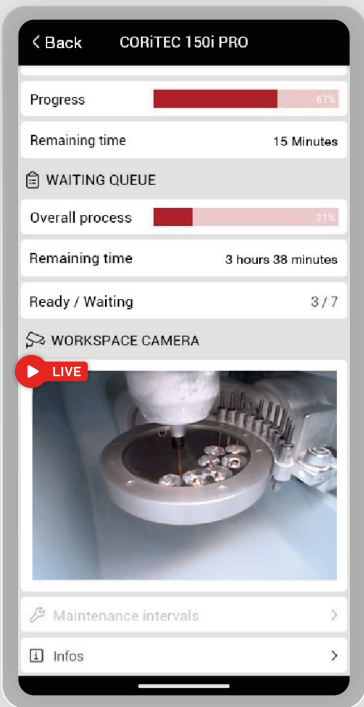

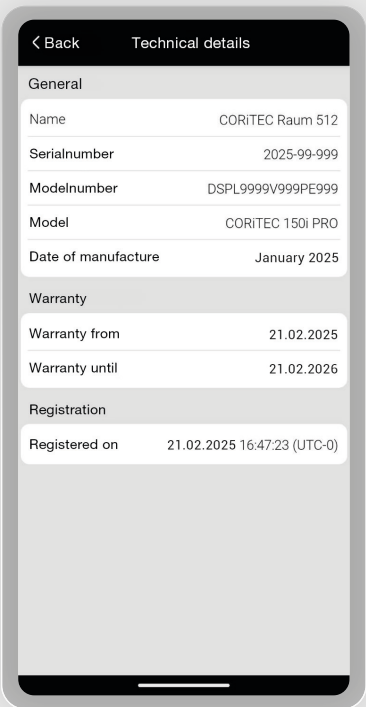

Smart Machine Management FOR MAXIMUM EFFICIENCY

The DSM machine management gives you full control over your devices at any time from any place. So you will significantly increase your productivity.

Your advantages:

- ✓ **Real-time monitoring:** Watch the machine status anytime and inspect the milling chamber by webcam
- ✓ **Maintenance management & logbook:** The complete maintenance history in one place
- ✓ **Job progress display & app:** All milling processes at a glance inside the app. Access via an app on your mobile devices

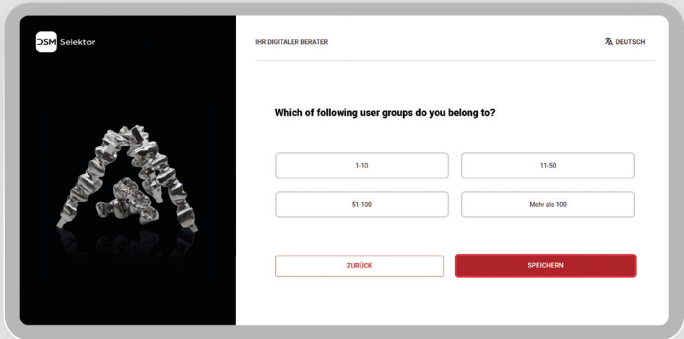

DSM Product Guide THE PERFECT SOLUTION FOR YOUR REQUIREMENTS

Use the interactive product advisor to find the right machine system and accessories for you.

DSM Selector

Your advantages:

- ✓ **Individual advice:** Specific questions guide you to the right dental milling machine
- ✓ **Available around the Clock:** 24/7/365 free of charge

DSM Configurator

Your advantages:

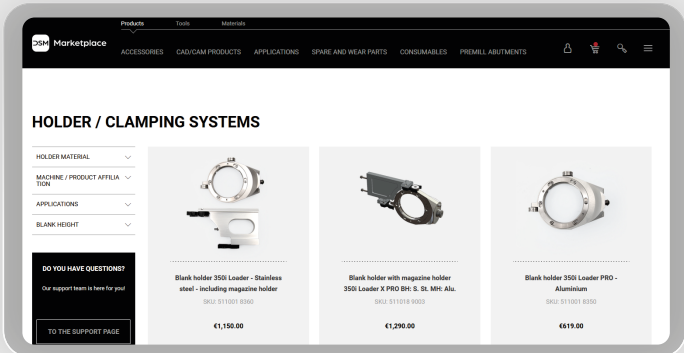

- ✓ **Individual arrangement:** Machine and accessories combined to exactly match your needs
- ✓ **Non-binding offer:** Request a non-binding quote. Your dealer instantly will get in touch to you.
